Enormous Savings In The Canadian Farmers Twine Bill

Binder twine manufacturers have announced radical price reductions that will save the farmers of Canada, the substantial amount of \$7,000,000.

This may sound like a pretty large figure to be saved on the purchase of so simple a commodity as twine, but that is because very few people realize the tremendous amount of twine that is used by the grain producing countries.

When the average grain farmer goes to town just prior to harvest and loads up the necessary twine to bind his crops—five, ten, or twenty bales—it is doubtful if he ever stops to figure the amount of binder twine that is used annually throughout the world.

His grain fields comprising 200, 300 to 1000 acres seem very large to him and indeed they are—too large in a year when he can't get time to work for five dollars a day. But consider the sum total of all the grain fields in Canada; we won't bother about the rest of the world, but will just take Canada alone. Imagine, if you can, being in the centre of 45,000,000 acres of small grain which is the total acreage for Canada in 1921 as given by the government estimate. Picture the sight of 45,000,000 acres of standing grain on an August day with the sunshine glancing off the russet heads and the breezes blowing over that immense sea in great waves 200 miles in length.

Place the great metropolis of Winnipeg in the centre of this gigantic grain field. It would be a mere dot in the centre, several hours ride from either edge by the fastest rail-road train. Such a field of grain would make a belt twenty miles wide extending from Vancouver to St. John. When harvest time came, one-eight foot binder in harvesting this field of grain would travel 46,345,000 miles, and would require 1,750 years to do it, even working twenty-four hours a day. It would take a pretty well-built binder to stand it, don't you think and the horses would get most awfully tired?

How much twine would it take to bind the grain on a farm of 45,000,000 acres? Now that we have our pencil sharpened, let us do a little for figuring. Two and one-half pounds of twine to the acre is a very conservative figure, but we will use

Crop Notes

In our last week's crop report we showed a justifiable vein of pessimism. Owing, fortunately to a large number of showers there is sufficient moisture to carry along the crop in good shape for another two weeks. The rainfall was lightest in the districts just north of the river, and was of greatly varying nature south of the river. In all districts the fields have benefitted and generally show a most vigorous growth. The wheat plants have stood very freely.

It is estimated by one farmer that his winter rye suffered for ten per cent damage by the frost of June 7th on the heads that were coming just at that time. Several fields of rye will be cut for hay and given opportunity to grow up again.

Baseball Activities

During the past week Chauvin added another victory to her already rather long string of victories on the diamond. Manager Freeman thought that it was time the locals were taught a lesson in the art of baseball playing as it should be played and so imported a North End for the occasion. The visitors arrived early Saturday evening and immediately operations commenced with a bang. In the first inning North End made four tables, Chauvin coming back with two. After that the local boys tightened up and the visitors went scoreless although they hit the ball often and hard. Chauvin on the other hand kept adding an occasional tally until they had the game on ice. The game scintillated throughout with brilliant plays of all descriptions. North End made seven double plays and Chauvin four. The most brilliant work of the evening was pulled off by Leach in right field when he made a long running catch of a fly cutting the Southerners out of their runs and at the same time stopping an effective batting rally.

Basket Ball

The latest team, to appear on the basketball mat is Killarney. Miss Finkins gathered up a number of her young stalwarts together and commenced by challenging the local juniors of Miss Freeman. On Wednesday evening the locals journeyed out to the south in force, the light rain which was falling being unable to dampen their ardor. Killarney was equally keen and the game as a result was a close one. Both sides went at it furiously and made up for lack of science by the vigoriveness of their play. After some 45 minutes of play the game ended 16-10 in favor of Killarney. The return match will be played at Chauvin Monday evening, and the locals promise an interesting game.

Wainwright Sports

Wainwright Sports Day will be held on Saturday, July 1st. Baseball tournament, and other athletic sports will be held. The band will be in attendance all through the day.

Useful Hints At Ribstone W.I. Mtg.

The regular monthly meeting of the Ribstone W.I. was held in the hall Saturday, June 3rd. President in the chair. The meeting opened with the singing of the Canadian and reciting of the creed.

Minutes were read and approved. Correspondence read and commented upon.

Mrs. G. Burton was appointed as delegate for the annual convention at Calgary.

It was decided to ask our speaker, Miss Gosselin, to speak on "Community Work" in the hall on August next. It was decided to send \$2.00 worth of fruit to one of our Ribstone friends who is ill.

An afternoon tea and sale of Home Cooking will be held in the hall June 24th at 2-30. Topic "Hints on Poultry" was then introduced.

Mrs. Morrison—Before setting your fowl, clean out your nests and put in fresh straw, dusting well with sulphur or insect powder, also well dusting the hen with the powder.

Mrs. Dally—For tuberculosis—Clean out the houses thoroughly, white wash and add 5 per cent creolin to disinfect. Keep plenty of good clean straw on the floor, to give exercise in feeding. Have plenty of light and fresh air in your houses. Feed 1 lb of Epsom salts to 100 hens once a week for a month or two.

Mrs. Pound—For feeding young chicks—hard boiled eggs, rolled oats and bread crumbs mixed together, feed a little at a time and often, and plenty of clear cold water.

Mrs. Blair—For colds in turkeys—A drop of muriatic acid in the drinking water is useful, but a little kerosene in the water often cures a cold, through the birds getting a little of the oil about the head while drinking.

Mrs. Russell—Do not feed young turkeys for 48 hours, at the start feed hard boiled eggs, chopped and small and all five times a day, giving sour milk to drink, feed a little sand, bran or bread crumbs mixed together when a few days old.

Meeting closed by singing "God save the King". All then repaired to the park, where the ladies served tea and spent a pleasant hour together.

The Ribstone W.I. will serve afternoon tea and hold sale of home cooking Saturday June 24th from 2 till 5 o'clock.

Edgerton Sports

Edgerton Sports Day will take place on Wednesday June 21st. Baseball, horse races and all kinds of sports together with aerobline flights and stunts flying. Wainwright band will be in attendance. Refreshment booth on grounds. Two comedies will be sure to provide an excellent entertainment for the evening, followed by a dance to first class music.

GETTING IT IN THE NECK

Bill Blewitt decided to have his life insured, and accordingly he had to be medically examined before taking out the policy.

The doctor was just about to declare him fit, but suddenly exclaimed: "Just one minute! What are all those bruises on the back of your neck?"

"Oh, they're nothing!" replied Bill. "I've been subject to them for years. You see, I'm a clarinet player in an orchestra."

"I don't see how that can produce bruises on your neck!"

It doesn't exactly produce them, but it places me in a position where I am liable to get them."

"And how is that, pray?"

"Well, you see, I sit directly in front of the man who plays the slide trombone."

DIED AT HIS POST

Jack owned a German-made watch. Recently it refused to run, so Jack took it to a jeweller.

There a post-mortem examination was made, and when Jack called for the verdict, his watch was handed to him with a piece of crepe tied to it.

"No hope," was the mournful verdict of the jeweller.

"What's the matter?" asked Jack, alarmed.

"Found a cockroach inside!"

"That's what plugged up the works, eh?"

"No," replied the jeweller. "The cockroach has been keeping the thing going, but he died at his post."

TOO RISKY

Pat and his friend were working on the roof of a house, when suddenly Pat lost his balance and fell off.

By great good luck his fall was broken by some telegraph wires, to which he managed to cling.

His friend immediately dashed off to secure a ladder. But when he returned he found Pat lying in the road, nursing a broken leg.

He asked why he had not kept safe on the wires until rescued.

Pat replied: "Faith I didn't know whether the wire would hold, so I dropped off before it broke."

Redd: "He's what I call a brave man."

Greene: "What do you mean by a brave man?"

Redd: "He's not afraid to die".

Greene: "How do you know he's not afraid to die?"

Redd: "Because he lets his wife drive his car when he's in it."

SAFETY FIRST

One rainy day Johnny's mother sent him to the shop to get half a dozen eggs.

On his return he handed her a bag containing six articles, which though egg-shaped, were certainly never laid by a hen.

"What are these?" asked his mother "It was eggs I sent you for."

"Well, mother," said Johnny, "the streets were awfully slippery and so I thought I'd better get lemons instead."

Clear Lake Boys Camp

Clear Lake Boys' camp, for the boys of the Chauvin, Edgerton, Wainwright and Irma districts, July 12th till 25th.

Thirty-eight years ago, and shortly after Dr. Lewis proclaimed his belief in the benefits of out-door life, Mr. Sumner F. Dudley, of New York City established his boys' camp on Lake Champlain. Some good men and women of that day held up their hands in holy horror. The boys would get wet! They would be exposed to 'night air' which everybody knew was deadly poison. They were quite sure that sleeping in draughty tents would kill the boys, or at least the boys would return home helpless invalids. It was an innovation for those boys, and the average mother would about as soon have exposed her boys to scarlet fever or small pox as to have them sleep in a tent. But 'Chief Dudley' in founding the first organized

boys' camp in America proved that sleeping in tents did not kill boys. On the contrary, the boys thrived in his camp and grew strong and husky. Happy boys and girls finding

To-day there are hundreds of thousands of happy boys and girls finding keen enjoyment and profit by this somewhat modern institution known as the 'summer camp'.

Nature has many lessons which books and school-rooms fail to teach. The teacher who will go to camp with his boys must, in order to be successful, lead in the play, and games swim, tramp, paddle and study nature rather as a big brother than as an instructor. He must enthrall the boys and gain their confidence and affection to a far greater degree than is possible in the day school. He is in camp because he loves camping and because he loves association with boys.

A camp for boys or girls is not only a health resort but it is essentially a character building institution and

necessity in the all-round education camping is becoming a recognized part of a boy or girl. A successful camp must have definite objectives and ideals towards which every phase of camp life is directed. Only such activities as contribute to the attainment of these objectives should be included in the camp program.

The daily program at Clear Lake Camp will be as follows:

7 a.m. Rising Call, Setting-up exercises, cleaning teeth, morning dip.
7.40 Flag Raising, O' Canada.
7.45 Breakfast.

8.15-8.35 Morning Chapel, Hymn Scripture, Comment, Prayer.

8.35-9.00 Duty Period, Bedding out to air, etc.

9.00-9.10 1st Activity Period Athletics, Running, Jumping, Throwing etc.

11.10-11.30 Instruction Period Beginners Swimming and Life Saving.

11.30-12.00 Swim Period.
12.30 Dinner.

1.00-2.00 Rest Period, Story telling Health talks, etc.

2.00-4.30 Afternoon Program, Hikes Athletic meets, Woodcraft, games Tournaments, Campcraft, Endurance Tests.

4.30 Swim Period, Instructions for beginners.

5.30 Supper.
6.30-8.00 Night Games, baseball games, etc.

8.00-9.30 Evening Program, Camp Fires, Stunt Nights, Entertainers Tests, Group Games, Life Work Talks etc.

9.30 All in tents, Family Prayers, Private Devotions.

10.30 Lights out. All quiet until Reveille.

The supervision of the camp will be under experienced leaders who will act as instructors in the various activities. Any boy wilfully breaking the rules of the camp will be immediately sent home. Every boy will be not only assured of a good time but a healthy and instructive training as well. The cost of the camp will be announced as soon as possible. It will be between fifty and seventy-five cts. per day. It will be open to every boy twelve years of age or over in the Chauvin, Edgerton, Wainwright and Irma districts. Parents whose boys are isolated from other boys are particularly urged to make an effort to have their boys attend. The value of such an experience to a rural boy is incalculable.

Address all enquiries and applications to J. R. Love, Irma, Alberta, Camp Director. See next weeks paper for further information.

Chataqua Coming

To Manitou Lake

A glorious opportunity for a summer holiday is being offered to everyone in this district by the four day Chataqua to be held at Manitou Lake. Beginning on Friday July 7th it will continue until the night of Tuesday July 11th.

A more ideal spot for such an holiday could hardly be found in any of the three prairie provinces.

The program each day will vary and be of interest to young and old alike. A play and a radio concert are to be included among the many interesting items on the programs. Our next issue will contain more details. Watch for announcements.

Chauvin Boys Enrol For Clear Lake Camp

J. R. Love, M. L. A., paid a visit to Chauvin Monday on business connected with the forthcoming Boys' Camp at Clear Lake. At the close of school time he gave the boys at the Chauvin Public School a short address. He briefly outlined the work now being undertaken under the auspices of the Provincial Boys' Work Board of Alberta. The four-fold ideal of this activity being the development of the physical, intellectual, social and spiritual characters of the growing lads.

The following lads have enrolled to attend the Clear Lake Camp: James Wright; Ray D'Albertson; Gordon Millar; Donald Folkies; James Borger; Lloyd Reynolds. They have been supplied with blank forms for use of other lads who wish to join in with them.

Lads from the country district can get forms from any of the above named; or on application to A. E. Keith or the Chauvin Chronicle office. It is necessary that enrolments be made before the end of the month.

In another part of this paper will be found more information together with a program of daily activities in camp.

Unity To Hold - Monster Orange Celebration: 12th

**SUPER SPORTS PROGRAM
WITH BIG RIZE LIST**

**BASEBALL, FOOTBALL AND
ATHLETIC EVENTS**

The 12th of July will bring record crowds to Unity this year to participate in the Monster Orange Celebration and Sports Day.

Already twenty lodges from different points have promised to attend and give their hearty support including those from Bear, Springwater, Lynden, Kelford, Wilkie, Reichenbach, Edgerton, Wainwright, Provost, Greenshields, Evesham, Naseby, Hughenden and many other points, all of which will participate in the grand parade commencing at 12.30.

BANDS IN ABUNDANCE
A noted feature of all Orange celebrations is the attendance of bands, and the Grand Parade in Unity will not fall in that respect.

NOTED SPEAKERS
It is expected that Bishop Lloyd will be at Unity on that date to ad-

dress the assembly. The Rev. Madocks of Edgerton, R.W. Grand Chaplain of Alberta and M.W. Bro. W. H. G. Armstrong, Grand Organizer of Saskatchewan have both definitely promised to be present and will deliver inspiring addresses.

BASEBALL TOURNAMENT
The Sports program is one of the largest ever planned for Unity. \$350. has been allotted to the baseball tournament and already a number of crack teams within a large radius are preparing.

For Football \$100. has been provided and keen competition between a good field of entries is assured. A full program of Field and Track events will also be carried out, keeping every moment of the day lively.

GENEROUS DONATIONS
The business men of Unity have donated generously to make this big day a decided success and with such energy and loyal support a big day is absolutely assured.

SPECIAL TRAINS
A special train will bring in many visitors from the east, while the regular trains from the west augmented by extra coaches will bring in the crowd that will flock to this quarter and from early morning the streets of Unity will be indeed busy.

Committee Busy Boosting Big Four- Day Chautauqua

Chautauqua is well away to a good start in this community. Let everybody bees for Chautauqua. This year a splendid programme is on the boards, and is one that every person in the district should hear. Help in the advertising. Be ready to buy a ticket when the ticket sellers call. Get your ticket as early as possible. This will help the committee. Several citizens are behind the scheme, but they should not bear the burden alone. Let everyone help and a good time is assured.

The old argument is again arising, 'Why is a guarantee necessary. Why cannot they come on their own?' It is all a money making scheme for a few to get rich quick. The argument is only the result of careless thinking. Do you suppose for one minute that men of the class of Burrnell Ford or Matthew Wayman or artists of the class of Clifford Poole, or of the Reed Metropolitan Players, who had a big run in New York, could come to a town of the size of this for the gate receipts alone, and take a chance on a small attendance? Not for a minute. The artists are big people, and it takes money to get them. But when the Chautauqua committee can go to them and say, "Come with us for five months on the Chautauqua tour, as we can pay you a certain sum, they are then able to secure good talent. The committee can only guarantee this when the several towns themselves are willing to give a guarantee. And without this guarantee we could not get these big men. And again, it is only these big men that we can't spend time listening to. Therefore a guarantee is absolutely necessary if we are to have a high tone to the entertainments.

And think of it. EIGHT ENTERTAINMENTS for the one price of two dollars and a half.

On the First day of the Chautauqua The Clifford Trio give a programme of trio, duets, solos, one act plays, and water color paintings, in the afternoon, and a short opening in the evening. The main feature of the evening is Matthew Wayman's address. Mr. Wayman is one of Canada's authors who has won distinction, and his address is specially for the farmers and business men.

Don't miss the first day.

Next week we want the children to watch this column, for the article will be for them. Watch for it, children. Chautauqua combines entertainment of a high order with lectures

which inspire, uplift, and diffuse knowledge. Every day's programme is an attempt to strike a balance between these important things.

Chautauqua comes to Manitow on July 7, 8, 10, 11, dates very convenient for the farmer. The sum is so small that everyone can get it if they start to save now.

Make it a big thing in Manitow by every person for miles around being found at each performance. Meet your friends under the big tent.

Local Notes Of Interest

We are pleased to record that Mrs. Carl, mother of Mrs. G. Reynolds, who was injured by falling down, is making good progress towards recovery.

Mrs. Levasseur, of St. Albert is visiting her daughter Mrs. L. E. Roy.

Born: to Mr. and Mrs. O. Z. St. Pierre on Saturday, June 17th twin sons.

Mrs. Col. Rodden is visiting her daughter Mrs. J. King at Mundare.

Goodyear All Weather Tread Tires 30 x 3 1/2 can now be purchased from J. A. Code, Chauvin for \$15.00. This is another reduction in the price of the reliable Goodyear line of tires. All other sizes are similarly reduced in cost to the buyer whilst the same high standard is being maintained.

Lieut. Col. Tamlin from Head Quarters of Military District No. 13, Calgary was a visitor of Chauvin in the official capacity of Veterinary Officer for M.D. 12 for the purpose of inspecting "C" Squadron Horses prior to entraining.

It is expected that there will be about 30 field crop competitions in the province this year. Entries are already beginning to come into the office of the Crop Commissioner in the Department of Agriculture.

Palmolive Soap—The old standby at 9 cents a cake—There is no sense in paying more.

The Chauvin Pharmacy

Grain Growers Sunday was observed by a special service in the Fram school. The seating capacity of the school was full taxed there being a good attendance.

The Kilbarr Basketball team came to Chauvin Monday evening to play the return game with the Chauvin juniors. The game was full of thrills and greatly enjoyed by both onlookers and players. The visitors winning with a score of 44-12 in their favor.

Mr. Soutar, the inspector of municipalities was a visitor to the municipal offices at Merton, and Chauvin. He expressed satisfaction with the books and office conditions at each of the three offices.

It is to the credit of the local school children that they are maintaining their interest in their school fair. Though their gardens suffered in the recent frost, there is going to be most keen competition.

Offsetting
Competition

The thing for the merchants of this community to do in their own interests is to advertise faithfully, and to make their printed announcements interesting and helpful to those whose trade and favor are desired.

The serious competitors or the retailers of this community are the big stores of the big cities—those that send out catalogues and have mail order departments

The poorest way to offset this competition is for the local merchant to remain silent. For them not to "speak up" is to give the mail order houses a better chance to get business from this community.

A WORD TO THE PUBLIC

When you send your money out of this community you enrich the great shops and impoverish this community. Strengthen—not weaken—the merchants of this community. It will all be returned to you in the form of better service and better values

Hints For Campers
At Salt Lake

Be sure your match is out. Pinch it before you throw it away.

Build a small camp-fire. Build it in the open, not against a tree or log or near brush. Scrape away the trash from all around it.

Never leave a camp fire, even for a

short time, without quenching it with water and then covering it with earth.

If you find a fire, try to put it out. If you cannot extinguish it, send word of it to the nearest Forest Ranger.

Throw pipe ashes and cigar or cigarette stumps in the dust of the road and stamp or pinch out the fire before leaving them. Don't throw pipe ashes and cigar or cigarette stumps into brush, or leaves.

 FOR
COMFORT

An Innovation For Vacation Travel

This is an age of advancement. People insist on seeing something new and seeing it in a new way. Things are done differently to what they were years ago, and with the idea of being up-to-date in every respect, the Canadian National Railways are affording the people of Western Canada an unusual opportunity of meeting these desires. To this end a special train is being operated, commencing at Winnipeg through to Prince Rupert, connecting with G.T.P. steamship for Vancouver, Victoria, and Seattle, making stops at various points of interest en route such as Little Lake Manitou (Watrous), Saskatoon, Buffalo Park (Wainwright, Alta), Edmonton, Jasper Park Lodge (Jasper, Alta), Prince George, the canneries in operation on the Skeena river, B.C., Prince Rupert Vancouver, Victoria and Seattle. The train leaves Winnipeg at 11.30 p.m. Friday June 23rd.

The lowest possible fare will be charged, viz: \$130.00, which will include return transportation from Winnipeg with corresponding reduced fares from other points; also sleeping car fare, meals and all entertainment on the going trip, so that passengers will only be required to pay for their meals and berth on the return trip. Choice of various routes may be had for the return trip.

An official of the Canadian National Railways will accompany the party on the going trip to look after their comfort and pleasure, which will insure comfort and pleasure for all concerned. The number will be restricted, so as to ensure a maximum of travel comfort.

Full information can be had from any Canadian National Railways Agent.

Tree Planting On The Prairie Farms

The officers in charge of the Dominion tree planting work report increased interest in this subject in all parts of the Prairie Provinces. The experiences of the past few years have impressed on prairie farmers the great benefits having beds of trees done to many farms by soil drifting has led to the discussion of tree planting as a remedy at farmers' meetings and in the press. The planting inspectors note that the ground is being better prepared to receive plantations, and that the plantations are being better cared for than in the past.

Enormous Savings In The Canadian Farmers Twine Bill

(Continued from Front page)

It because some of those 45,000,000
acres of Canadian grain are not
bound every year. Two and one-half
pounds to the acre give us 112,500,000
pounds of twine, of 2,250,000 bales.
Placed end to end these bales would
form a solid chain 1,025 miles long.
A twenty-story office building 240 feet
high and 130 feet square could be
built from these bales, and there
would be enough twine left to com-
pletely fill it. Counting 400 bales to
the carload it would require a solid
train of 3,750 cars extending forty
miles to haul it.

Standard Manila, which is the
brand of twine most universally used
in Canada, runs 550 feet to the pound
so we get the pleasing figure of 61,-
875,000,000 feet of twine to bind the
grain on 45,000,000 acres. If this
twine could be tied together, it would
reach five times the distance to the
moon, or 11,718,150 miles to be exact.
It would encircle the world 470 times.

So we see that Canadian farmers
are very much interested in binder
twine. This year the spread between
the price of the highest grade twine
and that of other grades is very
slight—yet the spread in quality is
just as great as ever. It scarcely
pays, even on the first purchase price
to buy twine that is not backed by a
good reputation for full length?
weight and quality. This year the
price of International, McCormick and
Deering twine in the Standard Manila
brand is just 6½ cents a pound lower
than last year. Other brands are re-
duced substantially. The new prices
just issued by the International Har-
vest Corporation are the first to be given
to the trade and indicate a tremen-
dous money saving to the farmers of
Canada.

What does the reduction of 6½ cts.
a pound mean to the farmers of Can-
ada? Basing our calculations on the
amount of twine necessary to bind
45,000,000 acres, the total saving of
6½ cents per pound is \$7,021,250. The
grain producing section of our great
country would be richer by over \$7,-
000,000. This great amount of money
could be expended for other neces-
sities and luxuries that go to make life
more worth while. Seven million dol-
lars will buy a great many tractors,
automobiles, farm lighting systems,
small engines, and will pay off mort-
gages on a great many farms. Can-
adian farmers deserve congratulation
on this immense saving now in sight
for 1922. The manufacturers likewise
are to be congratulated on making
this very attractive price. It indi-
cates a willingness to help the farmer
meet present difficulties, which will
bring his own reward.

nal writer, but a flat failure in the
local work, and vice versa. Personals
and local happenings can't be clipped
from other papers, not by a justifi-
able physical as well as mental ex-
ertion to get out one or two columns
of local news in a town of this size.
Most people take a local paper to get
the local happenings. Don't be afraid
to tell the editor or reporter that you
have friends visiting you. There are
lots of people who are interested in
your friends. You owe it as a duty
then to let your friends know of their
doings. Perhaps you think the paper
shows partiality, but just see if the
paper doesn't treat you right if you
give it a chance.

St. Jean Baptiste

Celebration June 26

It has been decided to hold the an-
nual St. Jean Baptiste celebration at
Chauvin, Monday, June 26th, it be-
ing considered more convenient to the
public than Saturday, on which day
the feast falls this year. The fol-
lowing officers being elected at the
meeting at which this decision was
made: Eugene Cote, president; Ol-
iver St. Pierre, vice-president; Emile
Cote, secretary; and Rev. Pere Huet
treasurer. Another meeting will be
held at an early date, and the various
committees will be appointed.

Remember—Monday June 26th

Give Us The News

We presume there never was a
newspaper in any locality that gave
all the local happenings, it is often
that some one comes or goes that
the reporter does not see. It happens
that the family is missed several
times. They get the impression that
the editor does not care to mention
them. This is a mistake. In most
country towns the local work is the
hardest work connected with a news-
paper. A man may be a good editor

McNab: "No, I haven't."
Gough: "Nor have I."

Wife: "You ought to have married a fool."
Husband: "I am glad you think I did the correct thing."

Things to consider before building

WHETHER YOU ARE BUILDING A NEW HOME or remodeling the old a practical economy demands that you use the greatest care in the choice of materials. The time to investigate is before, not after. Our buyers have sought only the best materials under favorable market conditions, which enables us to offer to the farmers of this locality the very best lumber that can be bought, at a price that will mean a great saving.

IF YOU WANT THE BEST VALUE FOR YOUR MONEY, dollar for dollar, the most dependable and durable lumber that money can buy, the kind that is of the highest quality, and weather resisting but, without, moderate in cost, then we would appreciate your giving us an opportunity of figuring on your requirements, for we know we can prove to you that quality for quality, dollar for dollar, we can save you money on your requirements.
